I like your mind  
The way you think  
Even when I'm too much  
It's good you bring  
It's been some time  
Let's change the scene  
Like two birds in the sky  
Or like king and queen

Give me a chance to fall in love  
I promise it'll be what you want  
Oh girl, give me girl  
That one spot you have to give  
I want you girl  
To be that chick that's for me when I'm rich or poor, see  
Loving you girl  
Would be so much easy if you just let me

Come into your life  
Like that new song playing in your mind  
Let it all play on repeat all night  
Cause that's how I wanna be  
How I really wanna see  
That's how I wanna be

I just wanna be your one and only, only  
Don't care 'bout the stories that they told me, told me  
I can trust you, baby  
You can trust me, baby  
Yeah, yeah

Laying on my sheets feeling cozy, cozy  
I just wanna lay your body only, only  
Give you something new, baby  
You can be my new lady  
Yeah, yeah

I'm like nobody, nobody, nobody  
You can trust  
I'm gonna be so real like non-fiction  
Know that this ain't magic

I'll throw my gloves to catch you girl

Give me a chance to be the one  
Promise you can shine like the sun  
Oh girl, give me girl  
That one spot you have to give  
I want you girl  
To be that chick that's for me when I'm rich or poor, see  
Loving you girl  
Would be so much easy if you just let me

Share a little time with you  
Spend it with a dime that's true  
Cause that's how I wanna be  
How I really wanna see  
How I really wanna be

I just wanna be your one and only, only  
Don't care 'bout the stories that they told me, told me  
I can trust you, baby  
You can trust me, baby  
Yeah, yeah

Laying on my sheets feeling cozy, cozy  
I just wanna lay your body only, only  
Give you something new, baby  
(I'ma give you something new)  
You can be my new lady  
Yeah, yeah

You got everything I need  
The body of a queen  
You've been my friend for a while now  
I see the way you look at me  
It's somewhere in-between  
You know exactly where I wanna be

You know I love to love to love you baby  
You know I love to love to love you baby  
So let me go in  
Your heart is what I mean

I just wanna be your one and only, only  
Don't care 'bout the stories that they told me, told me  
I can trust you, baby  
You can trust me, baby  
Yeah, yeah

Laying on my sheets feeling cozy, cozy  
I just wanna lay your body only, only  
Give you something new, baby

You can be my new lady  
Yeah, yeah

I just wanna be your one and only, only  
Don't care 'bout the stories that they told me, told me  
I can trust you, baby  
You can trust me, baby  
Yeah, yeah

Laying on my sheets feeling cozy, cozy  
I just wanna lay your body only, only  
Give you something new, baby  
You can be my new lady  
Yeah, yeah
