When my eyes first saw you

I knew I drove you wild

I know you wanted all of me

but it will take awhile.

You walk that walk

talk that talk.

You walk that walk

talk that talk.

Oooh

you're a child.

I know you want to hold me

hold and treat me right

I know you want to love me

all through the night.

You walk that walk

talk that talk.

You walk that walk

talk that talk.

Oooh

you're a child.

Well

I know you think you're ready

so throw away your teddy

let me come into your arms

prove you've lost your baby charms.

You know you're grown up baby

you knew right from the start

oooh baby don't yearn

but you've still got my heart.

You walk that walk

talk that talk.

You walk that walk

talk that talk.

Oooh

you're a child.

Well

I know you think you're ready

so throw away your teddy

let me come into your arms

prove you've lost your baby charms.
