"Don't Tell Me Your Troubles"

Don't tell me you troubles
I've got troubles of my own
Don't tell me your troubles
Just leave me alone
Leave me alone go on home
Tell it to your friend
I've got troubles of my own

Say your sweetheart left you
Well what you think about me
You got the same old heartaches
And them same old miseries
Leave me alone go on home
Tell it to your friend
I've got troubles of my own

Well it happens to the best of us
That's what they say
So take it for like a man
Don't stand in my way

You tell me that she's no way
She's as mean as she can be
It's written all over your lonesome face
Your heartbreak through can see
Leave me alone go on home
Tell it to your friend
I've got troubles of my own
Troubles of my own

Oh leave me alone go on home
Tell it to your friend
I've got troubles of my own
Troubles of my own x3
