Rain is burning feels so right  
I'm gonna give you love tonight  
you know I need your love so much  
make me shiver when we touch

I feel love for you  
close your eyes you'll feel it  
too  
don't go hold you back  
I'm getting ready for a love attack

Close the door  
turn out the light  
I'm burning just like dynamite  
It's time to give your love to me  
like my passion with your key

So much love inside  
no way I can stand the tide  
don't go holding back  
you know I'm ready for a love attack

I'm turned on and all I want is you  
don't turn me down I don't know what I'll do

I'm so full of love inside  
you really make me come alive  
It's time to let your feelings show  
hold me close don't let me go

I feel love for you  
close your eyes you'll feel it  
too...
