You. You, like it won't.  
Through me, me that won't heal.  
No, nothing hits me like you do.  
When it's all you are.

(Right.)

Try. Try, but you wont find  
Your witness to my crime.  
No, nothing cuts me like you do.  
When it's all your fault.

It's you. Just you and me, oh yeah.  
It's true. It just you, and me. Unfortunately.

Lie. Lie, but you wont hide  
The true. True, no it not like you.  
No, nothing hurts me like you do.  
When it's all you got.

It's you. Just you and me, oh yeah.  
It's true. It just you, and me. Unfortunately.

Why do you do the things that you do,  
Oh, what you doing to me?

'Cause its like you dont care.  
No you dont care, so you dont care,  
About me, whats new?

It's just you, it's just you.

All a circus.

Make it stop, make it stop, make it stop.
