What's with you?
Making me sick,
I know the reasons why.
You cut to the quick,
Ohh, But still I try.
It's all you can see.
And so it goes,
What can you take from me...?

You can take it away,
Take it away... ohh
Take it away... from me
I know, it's you,
I guess this time we'll see

Heres the trip,
Yeah you think to much.
I know the reasons why.
Your so out of touch,
And so it goes.
It's all you can take from me...

You can take it away
Take it away... ohh
Take it away... from me
I know, it's you,
I guess you disappear.

Take it away (x4)

You can take it away... ohh...
You, know, why,
You take it away
You can take it away...
From me no...
I know why.
