

## Butterfly Effect, The "The Way"

Visit ["The Way"](#) on MotoLyrics.com

Close your eyes so you can't see  
As you climb down with me  
Take my hand don't walk alone  
Where it stops I don't know

It's all right with me  
Saviour insult

Those who suffer  
Those who care  
Those who linger  
Anywhere at all

Take a minute  
Discover  
Why you need  
No other

It's all right with me  
Don't be selfish

Those who suffered  
Those who cared  
Those lingered  
Anywhere at all

That's how it is  
That's how it used to be  
No one waiting there for me  
That's how it is  
That's how we used to be  
That's how it was and always will be

The way we were  
That's how we used to be  
How it was and always will be
