I just might have been down too long
Turned into a surface where everything good was gone
See what you get for your good looks, girl
All the wrong attention, a lover that don't belong
I'll give you credit for hanging out
He was honestly deceptive and painfully beautiful

Somebody carry me out of here
Somebody carry me home
Somebody carry me out of here
Somebody left me alone

See what you get for your courage, boy
All the superheroes' identities never shown
So what to do for your punishment
You're failing all your trials, I figured you had your own
So set 'em up and I'll knock 'em down
All of this temptation was keeping you in control

These walls around me come crashing in
Oh, someone rescue me, oh someone carry me
Somebody carry me home
Somebody carry me out of here
Somebody carry me home
Somebody carry me out of here
Somebody left me alone
Somebody, somebody, somebody carry me
Somebody, somebody, come, come carry me
Somebody, somebody, oh come carry me
Somebody, oh no

I'll give you credit for hanging out
I was honestly distracted and painfully in control
