Come on, hey, hey
Boy, I wanna be your plaything, baby 2x

I, I've been watching you
From across the room I've seen you move
And I, I barely know your name
But I'm in the mood for playing games

So, come on and show me what you got
Boy I'll tell you what I want and what I really wanna do
Though, I feel you know what's on my mind
I just thought that I remind you
It's all in the game

I, I wanna get to know about you
I wanna feel your every move
Boy I wanna be your plaything, baby
And I, I've been thinking about it all night
And with the way I feel inside
Boy I wanna be your plaything, baby

Wanna groove with ya'
Wanna move with ya'
Wanna touch, wanna feel, on the floor keep it real
Wanna do it all night

Wanna groove with ya'
Wanna move with ya'
Wanna touch, wanna feel, on the floor keep it real
Wanna do it all night
Wanna do it al night

I can make you blush, with a single touch
And ain't a single thing that ain't too much (come on)
It could get a little hot, baby if I turn it up
Tell me are you warm enough, do you want my love

So, come on and show me what you got
Boy I'll tell you what I wanna want and really wanna do
Though, I feel you know whats on my mind
I just thought that I would mind ya

It's all in the game

I, I wanna get to know about you
I wanna feel your every move
Boy I wanna be your plaything, baby
And I, I've been thinking about it all night
And with the way I feel inside
Boy I wanna be your plaything, baby
