"Sand In My Pockets"

Burning holes in my shoes again
What got me here in the first place tell me
I draw my meaning of life up on your wall
It only ends once it said It only ends once it said

Sand in my pockets
From days I'd forgotten
Sun keeps on shining leaves keep on dropping
Don't ever ask me to stay it only makes me hate you
anyway
Someday

Beneath the bridge where three words we spoke
With no intention of watching the wheels come off
A hopeless sinner walks into a bar
Stays till the end of time, stays till the end of time

Sand in my pockets
From days I'd forgotten
Sun keeps on shining leaves keep on dropping
Don't ever ask me to stay it only makes me hate you
anyway
Someday (x2)
