Please let me love you a while  
Let me live in the warmth of your smile  
Let them see you with me  
Let them wish they could be

As lucky as me  
To have you here  
To hold you oh so near  
Oh yeah, oh yeah

Please let me love you today  
Let me give you my heart right away  
And we'll walk in the sun  
And we'll tell everyone

A new love has begun  
Just you and me always  
Oh yeah, oh yeah

And when I hold you I feel so high  
And when I kiss you I could fly
