Watch out what you say
Only in my way
I'm gonna get that girl
Wait and see

I saw her today
She came by my way
I'm gonna win her love
Just for me

And together we'll go walkin'
In the evenin' still be talkin'
She's the kind of girl you never
Always see

Have you seen her eyes
Do you realize
How much a love like that can mean to me

I know, she knows me
Today I could see
The way she held her head when she walked by

And before the night is over
I think, I'm gonna love her
And if it lasts forever, I don't care

And now she is mine
I told you all the time
How could I let a girl like that go by

And before the night is over
I think, I'm gonna love her
And if it lasts forever, I don't care
