It's been a long long time
And too many miles
of hand-shaking strangers parading their smile

Of all the faces that come and go
The only one I really want to know

I want you
I want you

and all the people they never stop
Their talking their parrot talk
But your voice is clear through the noise in my ears
So what!?

I can't believe I can feel this way
The only one way I know how to say

I want you
I want you

I can't wait 'cause
I can't take it
I know you've been contaminated
My love is warm
My love is stronger than anything
You'll Learn to be afraid of
Time marches on
And it kicks you aside
And they say we have time
But you know that they lied
I want you
I want you

I know you don't need to be
Caught in between my extremes
But you showed me things
That I so need to see

So believe when I say to you
No matter where I am I'd rather be with you

I want you
I want you
I want you
I want you
