"Borstal Breakout"

Visit "[Borstal Breakout](#)" on MotoLyrics.com

The aliens are coming and we don't know what to do
Kids are fighting, kids like me and you
We got to survive so tell us the truth

It's never too late to break out
It's never too late to break out
It's never too late to break out
It's never too late to break out

We're taking the blame and they're saying that's life
Well they don't understand we're just angels with dirty
faces
So take a look around you individuals rule

It's never too late to break out
It's never too late to break out
It's never too late to break out
It's never too late to break out

No mistake it's all still a fake
Questions and answers, win or lose
So hey little rich boy what have we got

It's never too late to break out
It's never too late to break out
It's never too late to break out
It's never too late to break out

80, 81, 82, 83, 84, 84, 84, 84
Do you want some more
Do you want some more
1984 do you want some more
