[Crooked I: repeat 2x]

It feels so good, when you so damn hood

[Crooked I]

Peep me out though

You niggas soft outta control, on your next video

You probably do the splits like the godfather of soul

While I'm rottweiler patrol, first I clock dollars

Then I pop collars with hoes, I got a problem with foes

Still in the club, hot boy dropping them bows

Nigga, Crooked I is the one that chicks adore

They put their lips on my dick and give me chips and  
more

Y'all should stop, you off the block you faking

I walk with glocks, don't talk to cops for nathin

I brought them choppers in case of al-ter-cation

I aims and pops in the face of confrontation

Speaking raw terror, I'll have your momma picking paul  
bearers

Broke niggas, yea, y'all error

Got to show 'em how to new age rap

But I'm still ghetto as the last swallow of Kool-Aid left

We so damn hood

[Chorus: Sisqo]

Pussy out if you would lets get good baby we so damn  
hood

We ride and another would, its understood that we so  
damn hood

Bust the script if you would, wish you could, nigga we  
so damn hood

Everybody feeling good like we should, baby we so  
damn hood

[Crooked I]

Stop the screaming, can't nobody in the area to help

If you was homophobic, nigga you'd be scared of  
yourself

Listen as I, start to whoop ass, why?

Would you try Crooked I, will you die like the last guy

I told you I would put holes riders man

Destiny's Child be the only "Survivors" man  
Nigga I been hot, whipping the six drop  
Hit you with ten shots, giving me big props  
My delivery flip-flops to the tick tock  
and it don't stop, giving the big glock  
I'm smacking you haters up, stacking the paper  
Like I signed an major contract with the Lakers  
It's C-R put them with E-R double O trouble blow  
Ghetto star haters split your wig  
And do the thang in this game 'til I'm O.G. it's Mr. Big

[Chorus]

[Crooked I]  
How many wanna know what I love? Holla, niggas who  
love me  
We six deep in the ridiculous humvee  
Peeling 50's and dubs off, in the mall  
Break your face, like Mike Tyson with his gloves off  
I'm so hood and ghetto fo life  
I park an five in the driveway and ready to fight  
If you think I ride with metal you right  
Commenting federal crimes only an federal type  
It's like, every where I go, all I know fo' sho'  
That this The Row, that we gets the dough  
What's the R-O-W like  
Slug one and you take your dime because you aint  
fucking her right  
Yea yea I nothin fo life, big pipes stuck in your wife  
In the bed it's us and a dyke  
You should never get it mixed up, big nuts, get  
clutched  
Thick sluts, get fucked, dick sucked, bitch what? (teIII  
meeeee)

[Chorus] - repeat 2X
