Uhh I can't believe
I let her slip away

We've been together through the worst of it
We had our fights but we got over it
Couldn't let you go
Part of my show
Put on a stager I was frontin with?
How could I let it get the best of me
All of them tricks I had em up my sleeve (under my
sheets)
Should've let them go
Not a life alone
What happened next is all a mystery

I said abrakadabra
She's lookin at me and I'm lookin back at her
Then she disappears,
The audience cheered
And she's go-o-o-o-o-o-o-o-one
I said Abrakadabra
Now gettin that feelin that she's gone forever
Cause I'm tryna bring her back
But she ain't comin back
She's go-o-o-o-o-o-o-o-one

I'm the one that made her vanish in thin air
Now I'd do anything to make her reappear
I thought I knew every trick in the book
But so much for Mr.Magic
Got her feelin on the edges of the chair
Tryna see if I can make her reappear
I pull rabbits from hats but can't bring her back
So much for Mr.Magic

How could I let her slip from under me (how could I)
The smoke in there has made it hard to see (couldn't
see)
Where did she go
Damn I don't know
Guess I'm a victim of my trickery
Gave the illusion I was real with you

When I was pullin the impossible
I was in your head
While I was in their bed
Now I'm all alone with nothin left to do

But say Abrakadabra
She's lookin at me and I'm lookin back at her
Then she disappears,
The audience cheered
And she's go-o-o-o-o-o-o-o-one
I said Abrakadabra
Now gettin that feelin that she's gone forever
Cause I'm tryna bring her back
But she ain't comin back
Ooh... She's gone

I'm the one that made her vanish in thin air (I'm the
reason that she vanished)
Now I'd do anything to make her reappear (do anything
to bring her back)
I thought I knew every trick in the book
But so much for Mr.Magic
Got her feelin on the edges of the chair (on the chair)
Tryna see if I can make her reappear (reappear)
I pull rabbits from hats but can't bring her back
So much for Mr.Magic

I can't believe it
I guess she leave me
Ohh Ooh

Girl we had our run
Now the show is done
Wish I could bring it back
To when we were number one (wish that I could bring it
back)
When I had you here
And you had my heart
The magic is fallin appart

And now I'm the one that made her vanish in thin air
(who made her disappear)
Now I'd do anything to make her reappear
I thought I knew every trick in the book
But so much for Mr.Magic (so much for Mr.Magic)
Got her feelin on the edges of the chair (on the chair)
Tryna see if I can make her reappear (this time I can't)
I pull rabbits from hats but can't bring her back
So much for Mr.Magic
