[Prelude: The Ambassador]

We want people to become disgusted
With the separation between God and man
And we want them to then solely trust Jesus Christ
And Him alone to restore the relationship
And to bring God and man back together
So that they can be one again
Who? Who eases the pain? Jesus is his name
Yeah, don't forget 'cause nobody...

[Chorus: The Phanatik]

Nobody does it like the most high God

[4x]

[The Phanatik]

I gets meticulously reckless when I'm splittin' beats in half
Fast to take a blood bath so I don't meet with wrath
Kill the noise boys I bring peace like a yellow ribbon
Sippin livin' water while my crew be steady fellowshipin'
Perfect timing, divine appointment, I've got that holy ointment
I'm anointed and am I'm about to rip this joint kid
Gots to stick with this ubiquitous always victorious
Omnipotent and omnipresent King who just be glorious
There's more to this life, there's got to be
I can see through the window of eternity and death is the key
To the doorway this is your day come get a foretaste
Dinner served, word up yo! soul food and it's gourmet
Hey! Behind the clouds and the mouths full of mystery
Their lies a savior who was just dyin to get with me
He did it! The scars on his wrist purely shows
And I know cause three days later he surely rose
It's not your typical mystical ritual or physical tradition
His mission: put a switch in your spiritual condition
Grantin' phat mansions, chantin' christian anthems
Sparked a holy culture and I'm ghost like the phantom

[Chorus]

Nobody does it like the most high God

[4x]

Nobody does it like Jesus Christ

[4x]

[The Phanatik]

Check the medley. Life without Christ is deadly I rock
steadily

Eatin up emcees and washin' 'em down with some Tetly

Like I was an animal a cannibal like Hannibal Lector

No lecture when I let you see that spiritual inspector

Pause for a second as I'm checkin out your pulse rate

Christ just put me in better hands than Allstate

All great! Just what I needed my Savior bleded

And died on the cross now my sins have been deleted

Now I'm bound to take on a different form than the
norm

No rehearsin' His third person does work in the storm

Back to that pulse rate, it's non-existent let's fix it

There's distance between you and the Savior don't risk
it

Come closer check the host of heaven be rejoicin'

When one soul gets saved they give praise with their
voices

Now mines is gettin' dry from this speech

I'm crazy thirsty I be cravin' for the blood like a leech

To each his own let's catch a view from the throne

Wherever you hang your heart is your home

Earth or heaven, set your affections on eternal

Give him reverence and I'll bet he'll get you heated like
some thermals

Turn your internal infernal organs to an altar

Which can't be altered the King of Kings will never
falter

Standin' firm on the rock of ages

Free from sin so I don't have to pay the wages

Let me rephrase this who can taste this cup of wrath

And face my God face to face raw without a mask

And grasp this concept and vomit truth from the belly
to dispel the

Words of the most high God somebody tell me

Are you with me? or am I alone in this?

Am I not clever or does Christ rule forever with
unmeasured holiness

If you're not down (well) then don't lie

But if you are then give praise to the most high (uh)

[Chorus]

[4x]

King Jesus Christ. Who's world is this? All praise...

[The Phanatik]

Holy, Holy, Holy O my God what can I say?
All praise be to Heaven's King YAHWEH
Lord God you're worthy early in the morning
You gets glory from dust to dawn and
Infinite wisdom we'll never grasp it
You've got eternity outlasted
Matchless King of all worthy of honour
To thee we ascribe glory shekinah
May we from thee never be severed
I'll sing praise to your name forever
El Elyon far beyond yet close by
Nobody does it like God the most high
