1. Remission

Every single moment
I have a fucking clear message for you
Cut your neck and fall asleep
Never cared for posers
Sink to your own cell and close it
I could sleep my nights well

The only thing I keep inside
Is the reason why I'm losing you
I have waited for this all my life
To find a way to get rid of you

You! You sold your soul!
You! You played your role!

As I fall down into darkness
Will you believe it's not me?
And when I kneel down for your remission
Can you leave the past behind?

Cut through the lies of your mind
Seek out the boundaries of your soul
Hiding my face from hate
Clear out the margings of your life

Say that you won't repent your sins
Then you'll know the end begins
I won't forget your grin T
There is no way that you can win

The only thing I keep inside
Is the reason why I'm losing you
I have waited for this all my life
To find a way to get rid of you

As I fall down into darkness
Will you believe it's not me?
And when I kneel down for your remission
Can you leave the past behind?

You! You sold your soul!
You! You played your role!

As I fall down into darkness
Will you believe it's not me?
And when I kneel down for your remission
Can you leave the past behind?

Domination - inside me
Diabolical - against you
Depravity - of our pain
Decadence - in your blood
Domination - inside me
Diabolical - against you
Depravity - of our pain
Disorder!

Penetrated! Tunnelvision! Recognition! Torment!

Domination - inside me
Diabolical - against you
Depravity - of our pain
Decadence - in your blood
Domination - inside me
Diabolical - against you
Depravity - of our pain
Disorder!
