"How To Sleep In A Stormy Boat"

Visit "[How To Sleep In A Stormy Boat](#)" on MotoLyrics.com

Red sky ahead, of the morning sun
And I've heard it said, that's when trouble comes
Have been blown by this wind, and I know this eve
I've been out here before, it's not a math that I need

Show me how to fly in the starless sky
Help me to hold on when there's no guiding light
Teach me how to sleep, how to sleep in a stormy boat.

I've been blown by this love
And I know these ways
There's no compass on earth
Could guide my way
I still don't know
but at the end of the day
Is it as simple as this, I want you to stay

Show me how to fly in the starless sky
Help me to hold on when there's no guiding light
Teach me how to sleep, how to sleep in a stormy boat.

And I've been out here too long,
Where it's dark and deep
Not waiting on words, it's not words that I need.

Show me how to fly in the starless sky
Help me to hold on when there's no guiding light
Teach me how to sleep, how to sleep in a stormy boat.
How to sleep in a stormy boat,
How to sleep in a stormy boat.
