Keep Generating Joy Making
Keep Dreaming on, Phorever People
Keep Contemplating, star Gazing
Keep Dreaming on, Phorever People

Phorever People behold you stand tall, you won't fall
Because you give it your All
With a Magical aura of Wisdom and Will
We'll progress in the future and never stand still
Knowing and Seeing that we're going thru Change
Discovery of Light, starting to arrange
In the Mind with the help of Visualisation
Plan for the Future Civilisation
Making a decision, and knowing it's right
Discovery of Truth in the Vision of Light
Phorever People you will always be
A Step forward in Life for Positivity
So Keep on Believing, and keep on going,
Keep on trying and keep on sowing
The seed that is good - you know that we know
Yo - here we go!

We are Phorever People and we don't have to look too
far To find Ourselves
'Cos what we See is what we Are
Phorever we will be together in our Dream Destiny
Phorever People can it be?
We are Phorever People and we don't have to try too
hard to work it out
Unity is what we're All about
Instinctively we'll be Together in our Dream Destiny
Phorever People can it be?

Keep Generating Joy Making Keep Dreaming on,
Phorever People
Keep Contemplating, star Gazing Keep Dreaming on,
Phorever People

Oo Phorever People for Now and for Then
You say "For When ?" and I say it's Phorever, my friend
Because the Future is Now, and Phorever is Here

Within Visions of Truth, Imagination is Clear
So go forth with Experimentation
Technology for the Future Generation
Add knowing insight and Mystical Might
Phorever People still doing it right!

We are here and now among You
We are here and now among You
We are here and now among You
Add knowing insight and Mystical Might
Phorever People still doing it right!

We are Phorever People and we can see Tomorrow in
each other's eyes
So recognise and realise
We are Futurity, awoken to our Dream Destiny
Phorever People can it be?
Keep it together people, or we can't last Phorever till we
understand
A Higher Love shall hold command
In Soul Control we'll Be connected by our Circuitry
Phorever People can it be?

We are Phorever People
Keep on Phorever People
We are Together People
Carry on Phorever People
