"Transcendental"

Visit "[Transcendental](#)" on [MotoLyrics.com](#)

Head up to the stratosphere
Cos I need some altitude
To clear my head in the howling wind
Change my point of view
Now I'm looking down on everything
And I'm looking down on you
Well I don't know but I understand
Yeah I don't know but I understand

Transcendental
Transubstantiation, perceptual activation
Transcendental
Transubstantiation, perceptual activation

I see the folly of your reason
The chaos of your rules
The madness of your institutions
And the wisdom of your fools
Yeah I'm looking down on everything
And I'm looking down on you
Well I don't know but I understand
Yeah I don't know but I understand

Transcendental
Transubstantiation, perceptual activation
Transcendental
Transubstantiation, perceptual activation

Transcendental, Transcendental
Transcendental, Transcendental
