"Master Jeskin"

Silence of core, the realm of fate has turned into stone
and they won't be able to control them anymore
Will they be seen, the time is out for Jeskin
Are they acting wrong? Are they acting right?

Their life will never be their own
Their world is down but the spirit lives on
And their life will never be a secret they must keep

Their world is down but the spirit lives on
And the master signs with pride, it's never too late

This is the land of the Weakness
Where we keep the poor and children to
Live a life that never ends
We are bringing them all together

This is the land of the Evil
Where we live a life in misery
And the fear it's always there
But we are bringing them all together

Sing with me
Sing with me
Sing with Master

The Master is here
Jeskin is here
