Bottle of vodka, we want more
Smashing glasses on the floor
Are we real or are we fake
Just go home give us a break

You play dead, we play dumb
You say talk, we say run
You play dead, we play dumb
You just think we're bubblegum

You don't understand, we play
We play dumb

Excuse me but we can be late
Why don't you abbreviate
What you see is what you get
Don't you understand it yet

You play dead, we play dumb
You say talk, we say run
You play dead, we play dumb
Don't call us, it's just for fun

We play
We play dumb

Bottle of vodka, we want more
Smashing glasses on the floor
Are we real or are we fake
Just go home give us a break

You play dead, we play dumb
You say talk, we say run
You play dead, we play dumb
Interviews are so much fun
