Now it's time to leave the lights
And hope that the future is just as bright
Please think of me back home
So, so close

I planted all my songs with seeds
In hopes that they would be my escape
From my, my life and then I never read machines
You pushed me to succeed
I won't be gone for, for long, long, long, long

I'm more than just a product
I'm not a clever line you thought of
You've gotta save that for someone who cares

Now it's time to leave the lights
And hope that the future is just as bright
Please think of me back home
So, I'm so close

And even though I'm so far gone
I know that I've grown with that one last song
A piece of me to hold
So, so close, we are so, so close

Come and take a walk with me
We'll slither up my sleeves, this isn't lust
This is, is more, more, more, more
We're months and miles away from dreams
We're swallowing this scene
This love tells, no, no, no, no, no, no, no, no

I'm more than just a product
I'm not a clever line you thought of
And you've gotta save that for someone who cares

Now it's time to leave the lights
And hope that the future is just as bright
Please think of me back home
So, I'm so close

And even though I'm so far gone
I know that I've grown with that one last song
A piece of me to hold
So, so close, we are so, so close

Don't, don't, don't, don't you wanna be
Don't, don't, don't, don't you wanna be
Don't, don't, don't, don't you wanna be
So, so close to me?

Don't, don't, don't, don't you wanna be
Don't, don't, don't, don't you wanna be
Don't, don't, don't, don't you wanna be
So, so close to me?

Now it's time to leave the lights
And hope that the future is just as bright
Please think of me back home
So, I'm so close

And even though I'm so far gone
I know that I've grown with that one last song
A piece of me to hold
So, so close, we are so, so close
