Close your eyes and try to sleep
Sleepsleep tight
Cause I know youre feeling weak
So sleep now
Every tear of yours
Fight it with your love
Share your love
With me
Share your love
With someone whos in need
Share your love
Dont weep
Share your love
You gotta fight to live
Theres no need to be afraid
I am here for you
All the pain will go away
Open your eyes
Look at me dont weep now
Cause I know
That you can speak to me now
When the tears will flow
When youll feel alone
Share your love
With me
Share your love
With someone whos in need
Share your love
Dont weep
Share your love
You gotta fight to live
Theres no need to be so sad
We are here for you
