I love my baby but she don't love me
Well I love my baby but she don't love me
Tell me what's the matter
Where can my baby be?

Brown skinned woman, who can your good man be?
Brown skinned woman, who can your good man be?
Well you told me that you loved me
Tell me where can you be?

Well you said that you loved me, I know it was a lie
You told me that you loved me baby, and what's the
reason why
Yeah I love you
Ooh I love you
Yes I love you baby, but I don't care what you do

Brown skinned woman, who can your good man be?
Brown skinned woman, I want to say who can your
good man be?
Well you know that I love you but you're so untrue to me
