I'll take my time to change your mind
You're all that I want
It's lonely now, I'm calling out
Won't you come home?
I can't sleep I've been wide awake
I just wish you could hear me say.

I've been here, I've been waiting
I've been here, I've been waiting
I've been here, I've been waiting
I've been here, I've been waiting
I've been here

Everyday you've walked away
Am I just a game?
Cause one more day is too much to take
If it all just stays the same
I can't sleep, I've been wide awake
I just wish you could hear me say

I've been here, I've been waiting (x 14)
