"I Want"

Visit "[I Want](#)" on MotoLyrics.com

I want a lover with a mother like that
I can take her out
It doesn't matter what time I come around
If its not too late I can violate.

How high do birds fly
If there's no one watching?
It could kill my mind
To think that time
Flies by as someone counts the hours while
I fall in love with you

I wanna get you off my mind
I could have then
I should have tried a little harder
I wish that time would be my friend
And you'd be here until the end, mabey longer.

I want a lover with a mother like that
I could take her out
It doesn't matter what time
She comes around
If it's not too late
I could fly away.
