"Stay"

Tonight as I'm driving away
I think of all the things I didn't say
Oh I wish I could
But the night will end before we know
And now it's time for me to go.

Wait for me, you always go away too soon
Just stay with me, you always go away too soon.

Tonight as you're lying awake
You think of all the things I didn't say
You know I'll come back to you
But the night will end before we know
And now it's time for me to go.

Wait for me, you always go away too soon
Just stay with me, you always go away too soon.

I remember all I forgot to leave with you
But now it's too late.

Movin' up seventy-one
But further from the one I love
I'll cry with the blink of an eye
Cause the night will end before we know
And now it's time for me to go.

Wait for me, you always go away too soon
Just stay with me, you always go away too soon.
Wait for me, you always go away too soon
Just stay with me, you always go away too soon.
Stay with me.
