Ayo

Ayo (What's that?)

One time for your mind (Back again)

Grand Imperial (Ayo yo)

You know the name (Check it out)

"Rasco"

Ha ha

Yo who think they challengin' the nigga wit' the illest
rhyme

patternin'?

Fuckin' wit' Ras I have your whole team scatterin'

Cheif chatterin' ice cold I'm about to let the dice roll

About a hundred for the toll

Cross my bridge wit' biz you ain't fuckin' wit' no little
kids

We grown men wit' the pen

Me and my boys destroy, you better call out the convoy

And say 'Goodnight' to John Boy

Tuck niggas away, gettin'--bucked wit' spray

By the new take for the--spit of the day

New man, new born, whole new form

Niggas still talkin', but they still can't go on

Through the eyes of the storm, I swarm like police, at
the drug raid

About to get the bugs sprayed

Your style is played like nineteen-seventy-six eight
tracks

Take it straight back

Be on the attack, nothin' but facts maintain

It's still hip hop, but yo, it don't feel the same

Simple and plain, I spits bonifide game

My two year reign was pure from the gut pain

The one man train givin' you all you can stand

Some niggas need crews, but I'm the whole damn van

Showin' a knack, give me a bangin' ass track

I handle my biz so I can watch the dough stack (You
know it)

Even four-track to eight, twenty-four slide

I'm movin' too fast, but y'all still wanna ride

Grab the wheel, I'm headed for mass appeal

So find me a breeze, I'm lookin' for ass to kill
Back in the lab I'm killin' on the first stab
When runnin' from us you better get the first cab
Bus, airplane or boat, going for the throat
I send 'im a not saying he wrote that quote
Freestylin', meanwhile, I'm at home makin' plans
I'm tryin' to hit eighty-five grand
Ras, the man, get in between for the green
You waited a while, but now I'm back on the scene

Chorus(x2)

[Rasco] Back on the scene again
Give me the pad and the pen, too fast to get blown in
the wind
Whatever the vibe you send, mines could blend
Rhymes stay clean
[Planet Asia] Back on the scene

(Scratched Ending)
