Chorus

I wish the propaganda was true, but I know it's only a dream  
(We were never the land of the free)  
Slavery to Abu Ghraib, Banana Wars and Guantanamo dreams  
(We were never the land of the free)

Rex 84, MK-Ultra, Pellagra Incident (Operation Paperclip)  
Viola Liuzzo; the sins of our government (Operation Paperclip)

V1

After the failure in their battle to prevent Integration  
Once again, conservatives tried reclaiming their dominance over the nation  
Led by Strom Thurmond and President Nixon's main political team  
They developed the "Southern Strategy", a system meant to reach  
And appeal to Southern, white people with chips on their shoulders  
Disgruntled and resentful of the changes in our culture  
Saying they "wanted their country back" to how it was before the liberals  
In the '60s changed the system, yeah the majority's now the victim  
Feeling that black's should quit complaining and women should be in the  
Kitchen  
Hispanics keep taking their jobs while gays corrupt their children  
But they can't be open with it cuz bigotry's now a "no"  
So like their leader Lee Atwater said, they have to speak in code  
Called "dog whistle politics", they preach against initiatives

That disproportionately help minorities, with an emphasis  
On foreigners and socialists, inner cities and progressives  
Plus welfare and education, using voter suppression  
Like the Red Shirts before them, they'd threaten and harass their victims  
Demonizing and disenfranchising everybody that's different  
The Confederate flag's their symbol, but they don't realize the wealthy  
Are using their fears against them so they'll buy the lies they're selling

Chorus

I wish the propaganda was true, but I know it's only a dream  
(We were never the land of the free)  
Slavery to Abu Ghraib, Banana Wars and Guantanamo dreams  
(We were never the land of the free)

V2

I bet you think law enforcement's purpose is to protect civilians  
Naw, it's only meant to protect the current political system  
So they silence all resistance with the blessings of politicians  
That's why protests and social movements are crushed for simply existing  
Take for instance when the FBI and J. Edgar Hoover Started the COINTELPRO program to crush the Civil Rights Movement  
Targeting Malcolm X, the NAACP, and minority leaders  
Anti-war groups, women's rights leaders, and even PETA  
From bribery to break-ins, sabotaging the operations  
Of the groups they'd infiltrated, even committing assassinations  
Like Fred Hampton and trying to convince Dr. King to commit suicide  
Worked along with the KKK, but these are the truths they're trying to hide

Like how the U.S. was using eugenics before the Nazis  
even existed  
And gave black communities syphilis like in the  
Tuskegee experiments  
Then allowed the CIA to bring cocaine into inner cities  
While they were waging the "War on Drugs" to keep  
minorities imprisoned  
Gary Webb exposed their crimes before he died, but  
our government always  
Killed or imprisoned it's whistleblowers like Bradley  
Manning, it's  
Appalling  
So when is the UN gonna send a peacekeeping  
Mission to America to save our citizens from this  
mistreatment, huh?

Chorus

I wish the propaganda was true, but I know it's only a  
dream  
(We were never the land of the free)  
Slavery to Abu Ghraib, Banana Wars and Guantanamo  
dreams  
(We were never the land of the free)

V3

Can you imagine being an immigrant? Like refugees of  
war fleeing their  
Villages?  
A child worker in diamond mines or a student or a  
businessman?  
You traveled 1, 000 miles in order to reach the "Land  
of the Free",  
Hoping to make a life in the United States and live the  
American Dream  
You believed the propaganda so you believe you can  
achieve  
Everything you saw on TV, so you brought your family  
To this fabled land of liberty and opportunities,  
Only to see rampant poverty, homelessness, and  
greed.  
People speak religiously but all you see is demonic  
imagery,  
Sexualized shows, drugs, guns, and blatant bigotry.  
Some hate you cuz of your accent and your low

knowledge of English,  
Even though it's your 3rd language and Americans  
barely can speak it.  
Blaming you for 9/11, unemployment and more  
Silently, you watch in horror as the public begs for war  
While the leaders justify torture and drone strikes on  
civilians,  
Indefinite detention, and a war on other religions.  
Sounding just like the dictators you thought that you'd  
escaped  
Watching American protesters get beaten and locked  
away  
You can't believe "the Dream" is a lie, and in this  
land, you're not wanted  
Realizing you would've been better off in your home  
country

Chorus

I wish the propaganda was true, but I know it's only a  
dream  
(We were never the land of the free)  
Slavery to Abu Ghraib, Banana Wars and Guantanamo  
dreams  
(We were never the land of the free)
