I feel nothing and I just don't know anymore.Â  
But it came to this  
That moment  
When we had our first kiss  
You looked into my eyes  
And I knew I was dreaming.Â  
But to my surpriseÂ  
You left my heart screaming  
For you.  
Only you.Â  
I've never wanted a person like this  
The tears that I shedÂ  
The cuts on my wrists.Â  
I feel your pain.Â  
But mine is not the same  
From this moment I think I'll just cry  
As you left me here waiting to die  
Because I felt your heart beatingÂ  
And I wanted you one last time  
And from this moment I will decide  
Whether I'm just terrifiedÂ  
Of loosing youÂ  
I think I'll quit  
Or because my strength is something I miss.  
From this moment.  
You told me either way, Â  
That today was another day.  
But you don't feel what I feel.Â  
The shivers down my back.  
When I see you with her  
I can't help but envy  
That she was the other.Â  
And I was bachelorette number two.  
But I still want you, it's true.  
From this moment I think I'll just cry  
As you left me here waiting to die  
Because I felt your heart beatingÂ  
And I wanted you one last time  
And from this moment I will decide  
Whether I'm just terrifiedÂ  
Of loosing youÂ

I think I'll quit  
Or because my strength is something I miss.  
From this moment.  
I am an emotional wreck.  
But only when I see you.  
And I feel it would be easier for you to let me go.Â  
The things that I stepped on.Â  
You never let me forget  
Because you're gone  
And I feel dead.Â  
Oh I feel  
From this moment I think I'll just cry  
As you left me here waiting to die  
Because I felt your heart beatingÂ  
And I wanted you one last time  
And from this moment I will decide  
Whether I'm just terrifiedÂ  
Of loosing youÂ  
I think I'll quit  
Or because my strength is something I miss.  
From this moment.
