"Resurrection"

Be my victim, be my everlasting lust
Let me torture you, I'm your master of pain
Let me lick your blood from your shivering skin
Let me show you fear like you've never seen before
(I need your tears
I drink your blood
I want your soul
I need your life)

You give me everything I want
You give me everything I need
Your tears, your blood, your life, your soul
I will rise again tonight
I take everything I can
I'm not afraid of killing you
I need your blood, I need your pain
For my resurrection
