"Second Chance"

Visit "[Second Chance](#)" on MotoLyrics.com

I'm sitting in my room alone
And I'm thinking of my past
I'm asking me, what would be
If I could live my life again
Would there be a better now?
Or would everything be the same?
Would you be still in love with me?
Did I hurt you like I did?
Will I feel these feelings for you?
Will I be in love with someone else?
I wish I could change the time
I wish I had a second chance

Take me to the place I was born
Let me see my youth again
I wish that I could start it new
Don't wanna make these mistakes again
Let me live my life again
For I could be a better man
Everything I have done wrong
Would no longer exist between us
