"Silent Tears"

Visit "[Silent Tears](#)" on MotoLyrics.com

I know the darkness is your leader
There's no light inside your heart
I can't forget that your depression
Breaks my love apart
I spread my wings against your shadow
My love can't really light your shades
And I wish I could forgive you
But every day is still the same
I feel our love is not forever
Seems like a never ending one
You can't repair my bleeding soul
'Cause no one hurts like you, my dear
And I will never fly with you
Never you should see me cry
I never told my dreams to you
You could never see in my heart

But in my tears dissolves our heaven
All my love and all my dreams
I realize I can't stand your coldness
I realize too late, my dear
