[Chorus]

Catch me at the light, when you see me rolling  
You ain't got a fast car, might as well keep going  
Catch me at the right, and you better be riding right  
With the suicide doors on the side

Catch me at the light, the light  
I see you creeping up  
If you want some conversation, speed it up  
Catch me at the light,  
Catch me at the light  
Buckle up, let me take you on a ride

Pull up, top back, I'm back  
Drop top's got me feeling so alive, oh yeah  
In my new thing paint all black  
Whips came got the haters hit the ties, oh yeah  
I got 200 on the dash, looking like I'm flying in a space  
ship  
I'm fin to play with  
Cause if I'm talking to a man,  
...he be right like me, me

If you're a maserati, hold up,  
Bentley, yeah hold in  
Looking like a benz or a beamer where you going  
Jaguar, elise, show me you can keep up with me...

[Chorus]

Catch me at the light, when you see me rolling  
You ain't got a fast car, might as well keep going  
Catch me at the right, and you better be riding right  
With the suicide doors on the side  
Catch me at the light, the light  
I see you creeping up  
If you want some conversation, speed it up  
Catch me at the light,  
Catch me at the light  
Buckle up, let me take you on a ride

Green light, don't look back

Please don't let me reach off the lot  
I don't mind  
If you can keep up that's what's up  
Competition is so hard to find, to find  
Cause when the traffic is thick,  
We swerving pass em so quick  
We bent corners, bending Hondas and imagine type  
whips  
Off the freeway we go, that I know you can spend  
A couple dollars on a body, boy you whip it so exotic

If you're a maserati, hold up,  
Bentley, yeah hold in  
Looking like a benz or a beamer where you going  
Jaguar, elise, show me you can keep up with me...

[Chorus]  
Catch me at the light, when you see me rolling  
You ain't got a fast car, might as well keep going  
Catch me at the right, and you better be riding right  
With the suicide doors on the side  
Catch me at the light, the light  
I see you creeping up  
If you want some conversation, speed it up  
Catch me at the light,  
Catch me at the light  
Buckle up, let me take you on a ride.
