Work work work night and day  
But they'll take it all away  
You think you're earning more  
But is only another sore  
You're told you don't pay enough  
But you know it's all a bluff  
In the end what you pay's double  
You're covering up all the troubles  
NO MORE TAX  
They'll take even your blood  
They will sell it and make a buck

When you're off sick it doesn't matter  
One more reason to get better  
They need money so they put them up  
Suckers like you pay and shut up  
NO MORE TAX  
They bleed you dry  
Now they want more  
On and on you're still obeying  
Poor bastard like you keep on paying  
NO MORE TAX
