For many years rules holocaust, nobody  
Think of better days  
This is the time, the time of hate,  
6 millions die by german hands  
Trace jewish people  
And no one want to hear the cries  
No one change this crime  
But every one believe the lies

Voices in the sky - see your mother die  
Voices in the sky - hear the last crie  
Voices in the sky - the children die  
Voices in the sky - who tells me why

Today we live in present time  
And no one's learning from the past  
Were leading wars once more again  
We feel the hate like a strong blast  
But who resist this - inhuman game?  
The killing of mankind  
Everytime it is the same

The holocaust is our fate  
And we don't think of better days  
Now is the time, the time of hate  
And we would die here on this place  
Trace you and me  
And no one want to hear the cries  
No one change this crime  
But everyone believe the lies

Voices, Voices...
