You fill my sweetest dreams
You fill my sleep
You fill my heart with love
You make my life complete
When all is said and done
Darling I know you're the one

Lying in my lonely bed
Thought about you as the moon
Listening to the sad songs down below
Thought about you as the tune
Wish that I could let you know
I think about you as the sun
So you're everywhere I go
My darling I know you're the one

The one I long to see
To drown myself in you
Surround myself safe in your arms
Forever

Darling I know you're the one

Funny how the circle turns
Funny how the flame still burns
Now that all is said and done
Darling I know you're the one

Wherever you go
I'll always know
Darling I know you're the one
You're the one
Darling I know you're the one
