"Cosmic Baby"

Visit "[Cosmic Baby](#)" on MotoLyrics.com

I don't want to wait around too long

You better not let me down
You better not leave me here
You better not try to change things
You better not disappear

You better not take revenge
You better wait till the end
You better not back the loser
You better not try to see her again
You better not try to see her again

I don't wanna wait around too long

The life was made for me
This life was meant for me

You better not make mistakes
You better not fool around
You better not make me pay
You better not no you better not

You better not find your peace
You better not get release
You better not fall on stony ground
You better not let your guard down

The life was made for me
I don't wanna wait around too long

You better not make mistakes
You better not fool around
You better not make me pay for this
You better not no you better not
Cosmic baby, cosmic baby

You better not let me down
You better not leave me here
You better not try to change things
You better not disappear

You better not make mistakes
You better not fool around
You better not make me pay for this
You better not no you better not

Cosmic baby

The life was made for me, cosmic baby
I don't wanna wait around too long

Cosmic baby

The life was meant to be, cosmic baby
I don't wanna wait around too long

I don't wanna wait around too long
