I've seen you fall with stupid pride,
The vulnerability you try to hide,
Forget the past, and look at me now,
(And look at me now)
(And look at me now)
A cold expression on your face,
From your contempts I feel disgraced,
Forget it all, and look at me now,
(And look at me now)
(And look at me now)

You wanted the mystery,
You asked for, to feel me,
My mask is beginning to slide,

So where we gonna go from here my love?
What am I gonna do when you won't hear me?
You should know I'm there, by your side,
If you need me,
Will you take my love?
If I show you how?
See I could never be,
What you want from me,
Still I'd give you everything,
If you: If you take my love,
If you take my love,

How many times have I tried,
To tell you, I apologize?
Forget my words, and look at me now,
(And look at me now)
(And look at me now)
Three names cut deep inside your heart,
And one of them which is scarred,
Forget the pain, and look at me now,
(And look at me now)
(And look at me now)
See you never knew me,
But still you got to me,
I can't seem to leave you behind,

So where we gonna go from here my love?

What am I gonna do now you won't hear me?
You should know I'm always by your side,
If you need me,
Will you take my love?
If I show you how?
Oh I could never be,
What you want from me,
Still I'd give you everything,
If you: If you take my love,
If you take my love,

Will you take my love?
If I show you how?
Oh I could never be,
What you want from me,
Still I'd give you everything,
If you: If you take my love,
If you take my love,

Would you take my love?

Take a look at me now...
