Every day i see you  
My hands were made for you  
And you always give me stress me free point of view  
Pick you up after school

[Chorus:]  
(Mr. Magic) Take a token  
(Mr. Magic) Of my love  
(Mr. Magic) I see you through the smoke

Without you, a misery  
Blue with a migraine  
All the songs sound better when you're next to me  
Hey, coz they come naturally

[Chorus]

Laying on my bed  
I reach over for you  
And you so fresh you even make the standards bloom  
But its just to you through

[Chorus]

(Mr. Magic)  
(Mr. Magic)  
(Mr. Magic)  
Waiting for the smoke to clear.  
I'm waiting for the smoke to clear
