"Paper Made Men"

Take a needle push it in starting with the eye.
For ever time they wandered and every time they lied.
Take a needle push it stick it through the hands,
For every time the smothered me for failing your
demands.

That Voodoo you do, comes back threefold on you
That voodoo you do, my paper-made man. (my paper
made man)

Take a needle push it in press through his tongue,
For ever time he told me that he loved me and
whispered me i'm done.

That Voodoo you do, comes back threefold on you
That Voodoo you do, oh no oh no oh no (comes back
threefold on you)
That Voodoo you do, comes back threefold on you
That voodoo you do, my paper-made man. (my paper
made man)

ee ai ai oh etc

Take a need it push it in press it through his heart,

That Voodoo you do, comes back threefold on you
That Voodoo you do, oh no
That Voodoo you do, comes back threefold on you
That voodoo you do, my paper-made man.
