"Everybody Loves You Now"

Visit "[Everybody Loves You Now](#)" on MotoLyrics.com

You were colour and sound
Numbers and words in the rain
All that faith wont heal
And science wont explain
You were all for real
And nothing less
Youve been asleep in a beautiful mess
But its all right
Everybody loves you now
Its all right
Everybody loves you now

One more day

Of lonely place to place
When you're always reaching out
Through time and space
And everybody loves you now

You were breaking out
A great escape
A work of fine art is taking shape
And its all right
Everybody loves you now
Its all right
Everybody loves you now
Its all right
Everybody loves you now
You know its all right
Everybody loves you now
