

Shane Nicholson "Nice To Be Here"

Visit "[Nice To Be Here](#)" on MotoLyrics.com

Pack all the good wins safe on the shelf
Stuck in an orbit around yourself
Hand over hand and keeping the score
It's just not music anymore
Finding a mountain and beating it flat
We've got nothing if we don't have that

I feel, it's nice to be
It's nice to be here

Shut off the bright lights and come back to earth
You had a good time for all that it's worth
Prize of the year just came into bloom
A time bomb ticking in an a crowded room

I feel, it's nice to be
It's nice to be here

(Find a mountain and we're beating it flat)
So, why don't we stay?
(We've got nothing if we don't have that)
'Cause out there everyone's

(Catch the victory that slips through the crack)
Got a price to pay
(We've got nothing if we don't have that)
And it could be our finest hour

You left a message on my breath
I'm so alive I'm scared to death
It might be raging war outside
But I'm always ready for one more ride
And you shot a spark from a catherine wheel
