The melody inside of me
Together with the harmonies
You gave me once for me to keep
Had the kind of beauty you would
Think would last forever and a day

The melody inside of me
Now rarely makes the music
Like it used to do long ago
To put the blame on you would be as
Easy as it is unfair I know

Days and years go by and I know
Many times love can die
But still I hear this song of love
Though weak and frail it's always there
And I wish you could hear it too

Song of love
I hear my song of love
That makes me long for love
And all those yesterdays of joy

So hear my song of love
My dear a song of love
It can't be wrong to love
When I still feel the way I do

And I just hope it never fades away
My song of love

To fall in love's an easy thing
A foolish heart is all you need
To stay in love takes more than that
As years go by you sadly see
Reality was not the dreams you had

I know that hope has made me blind
I seek the truth I want to find
It's hard to tell what's right or wrong
But I just heard you sing my song

And I know you could hear it too
Say you do

Song of love...

I sing my song of love
To let the pain out of my heart
I sing my song of love
So we can have a second start
And I want to share my song of love
With you

So hear my song of love
My dear a song of love
It can't be wrong to love
When I still feel the way I do

And I just hope it never fades away
My song of love
