Featuring The Kid Daytona  
Produced by G ROCKA

(Intro)

Yea man

You know what I mean?

Get you to drink

You know what I mean?

Enjoy the weather type shit, you know what I mean?

(Verse)

It's like Maldives that Moufy pronouncing

Success with a smile on my face and titties bouncing

No amount to me is good enough,

My heavy hitters carry many triggers,

Spin the heat that make your bezzy glitter

Battle me you better bring the levies with ya

Flows over your head, you couldn't swim to carry

listeners

Shit, I'm that good if they show hate

I only draw from real life, the right yea they all trace

Keep a tool like, similar to new knife

With 2 strikes I rap behind bars, this is true life

Don't fuck around with me, my angles beat the plans to  
be

Pour salt in your wounds, Angeline Jolie

I never canopy rap along the farm coast

May everyone we bring be the way to boast

I'm close to every dream God gave me

I call a toast to every dream God's making

It's like

(Hook x2)

Grindmode til they feel it in the top row

Til they hear the spark blown, showin that I got clones

I'm on my Cayman Island getaway

I'm on my Cayman Island getaway

(Verse)

Born in island of the Cayman, how I stay miss from the  
alphabets

Never let no be the answer, only outcome's yes  
Malcolm expects no prescription for the lenses  
Swinging for the fences, throwin family over  
friendships  
Couldn't comprehend it, if you want it we will mention  
Burger King with a pension, overstayed my welcome  
Never demonstrate a hand to help him  
I display a middle finger saying fuck yourself and  
No one else gave shit to me  
My victory is self-earned, well deserving of the chips I  
see  
I set the drink, she hit the weed, rest is history  
Was then and done, any be left is a mystery  
Then it's happy and this fun Koreans off the bar  
You be on a low on your judge to fault the flow  
Come coast to roll the cans, I'm going over plains  
Me and Rick she, watch your folks do some sex

(Hook x2)

Grindmode til they feel it in the top row  
Til they hear the spark blown, showin that I got clones  
I'm on my Cayman Island getaway  
I'm on my Cayman Island getaway
