"Archons"

The end will come with the sunset
The merging is complete, we burn

You claim to overcome us, let us prove you, you're
wrong
We are more than just your enemy; we are the last
thing you'll ever see

We need focus, oblivion awaits
We must consume, eradicate
We will rebirth, as a one man army, we will rebirth, for
you to see

The end will come with the sunset
We burn
Annihilate, our thoughts in chaos
Dominate, destroy

We strike at you from the shadows but we will stand in
the light
We are more than just your enemy; we are the last
thing you'll see
Annihilate, destroy
