Oooo, oooo  
What if God came down to earth  
Stepped out of heaven  
Walked into your house  
And said ask me anything  
And you said I just have to know  
How do you get to heaven  
And you were hanging on His every word  
Cause He is God, You believe because He's God  
And He said

There's a way to go, an open door  
For the human soul  
You can come today  
Jesus is the way  
He's my only Son, He's the one I love  
And I gave Him up for you to be saved  
Jesus is the way

You know that God came down to earth  
He stepped out of heaven  
Walked into my world  
And made my heart His home  
And He said there is a better way  
A life worth living  
And I'm hanging on His every word  
Cause He is God, I believe because He's God  
And He said

There's a way to go, an open door  
For the human soul  
You can come today  
Jesus is the way  
He's my only Son, He's the one I love  
And I gave Him up for you to be saved  
Jesus is the way

There's a fork in the road ahead  
That you are walking  
It is wide and it is easier  
But it leads to destruction

The other way is a narrow gate  
It's the path less taken  
It is hard and it requires your life  
It's the pathway to Zion  
The pathway to Zion

There's a way to go, an open door  
For the human soul  
You can come today  
Jesus is the way

There's a way to go, an open door  
For the human soul  
You can come today  
Jesus is the way  
He's my only son, He's the one I love  
And I gave Him up for you to be saved  
Jesus is the way

There's a way to go, an open door  
For the human soul  
You can come today  
Jesus is the way  
He's my only son, He's the one I love  
And I gave Him up for you to be saved  
Jesus is the way

Oooo, ooooo
