Well you had your phase 'cause you wanted to  
Yea you had your phase 'cause you wanted to  
You keep the small space 'cause you want it  
You keep the small space 'cause you want it  
Well you had your phase 'cause you wanted to  
You wanted to..

Never picked your place 'cause you want it too  
Never picked your place 'cause you want it too  
You live in outer space 'cause you want it  
You live in outer space 'cause you want it  
You never picked your place 'cause you want it too

Do you change it only to arrange it?  
Only to arrange it..  
Only to arrange it..  
Do you change it only to arrange it?  
Only to arrange it..  
Only to arrange it..

Yea you keep me down 'cause you want it too  
Now you keep me down 'cause you want it too  
You make the people wait 'cause you want it  
You make the people wait 'cause you want it  
And now you keep me down 'cause you want it too

Do you change it only to arrange it?  
Only to arrange it..  
Only to arrange it..  
Do you change it only to arrange it?  
Only to arrange it..  
Only to arrange it..

Do you change it only to arrange it?  
Only to arrange it..  
Only to arrange it..  
Do you change it only to arrange it?  
Only to arrange it..  
Only to arrange it..
